Tobacco Canvas

At

OLD PRICES.

Following our usual custom of buying direct from the factory, we placed an order last August for THREE HUNDRED THOUSAND YARDS Tobacco Canvas. This lot was divided between three stores—so the quantity is limited. The ruling prices today are much higher than we paid—but we have always sold canvas for less than its value, and we will do it again this year as long as the lot lasts. If you can't come to town now, telephone us your order and we will reserve what you want.

ORDINANCE NO. 46

Be it ordained by the Board of Council of the city of Hopkinsville, Kentucky:

That it shall be unlawful for any person to obstruct the streets, pavements or sidewalks of the city of Hopkinsville, by placing advertising boards thereon.

Any person violating the provi-

sions of this ordinance, shall on conviction before the police court, be fined five dollars for each offense.

Adopted Feb. 15, 1907.

HERBERT P. McMATH, Clerk.

Approved Feb. 16, 1907.

COUNCIL MOVES ON CUMBERLAND

Takes Steps to Require the Company to Buy a Franchise.

ORDINANCE REVISION.

Street Sign Boards No Longer to Be Allowed In the City.

The city council met in regular session Friday night with all members present except Councilman Armstrong.

The report of the committee on revision of ordinances was received and was made a special order for a meeting to be held next Friday night.

The finance committee reported that the accounts of Treasurer A. W. Wood for 1906 were correct and he was given his quietus for last year.

An emergency fund of \$100 was placed at the disposal of the Mayor.

An ordinance was passed forbidding loose board advertisements on the streets or sidewalks of the city.

The Mayor notified the council that he had revoked the license of Wellington Berry, col., who operates a pool room on Seventh street, to take effect Feb. 23.

Chairman Twyman, of the street committee, was directed to proceed at once to enforce the new ordinance requiring the trimming of trees that obstruct street lighting.

The account of the City Light Co. for January was allowed, subject to correction by the finance committee.

Deeds to the new street from 18th to 21st, to be known as Harrison street, were accepted from the Hopper heirs and the Forbes Mfg. Co.

The council instructed the city attorney to prepare an ordinance declaring the Cumberland Telephone and Telegraph Company a nuisance in Hopkinsville and imposing a fine upon it every day it continues to run without a franchise. The Cumberland's franchise expired in 1902, and it has since continued to operate without having purchased a franchise.

This is the home office of the company, and in 1904 it agreed to an assessment of \$60,000 on its intangible property which it has since refused to give in. It last week brought suit to recover \$900 paid on the 1904 assessment with interest, holding that the assessment has since been held to have been unlawful.

The ordinance to be reported will be similar to one recently passed in Elkhorn under which a compromise was effected, the Cumberland agreeing to buy a franchise in the regular way.

Thresher For Sale.

We offer for sale the Geiser Thresher owned by us jointly. It includes thresher, separator, kitchen and cooking utensils, engine, McCormick shredder, etc. Will be sold for division Feb. 22, at 1 p.m., on the premises of W. H. Adams, seven miles from Hopkinsville, on Cox's Mill road.

MEETINGS HAVE CLOSED.

Immense Crowds Attended Services Sunday and Sunday Night.

THE HORSE RACE

One of the Best Sermons Ever Heard at the Tabernacle.

Just what have been the results of the Holcomb meetings cannot yet be determined. Dr. Lyon, the pastor of the Methodist church, announced Sunday afternoon that there would be large accessions to his own, and many of the other churches of the city. He said that the pastors would be handed a list of converts who would unite with their churches. The Christian church will have an addition of nearly 20 members, and the Baptist and Presbyterian churches were also mentioned in the same connection.

Mr. Holcomb preached his great sermon, "They're Off," to 4,000 or more people Sunday afternoon. Expression from those who heard it justify the assertion that it was one of the finest sermons ever delivered in the tabernacle. Some assert that it was as fine as Sam Jones' sermon on "The Black Horse."

Sunday night the evangelist preached to a capacity house on "Heaven." The crowd has been estimated at from 4,500 to 5,000, some saying that it was the largest ever seen in the tabernacle. Mr. Holcomb was at his best in both sermons, though when closing each he was

Gossip of Gotham

New Use for Tights and Shoes Worn by Famous Actresses—Phelps Stokes and Wife Abandon Settlement Work for Socialist Cause—Other Notes from the Metropolis.

NEW YORK.—One of the oddest fads in New York city is on the upper West side, not far from the Manhattan street station of the subway. It rejoices in the inelegant if expressive title of the Subrette Museum. It is tenanted by Mr. Epses W. Sargent, who some years ago began to pick up odd bits of old socks and stockings in his collection and to sell them at anything else in town.

The most striking feature of the apartment is the portiere of tights between the dining-room and library. Pauline Hall, Vernon Jarreau, Cheridah Simpson, Truly Shattuck, Emma Carus, Belle Gold and half a dozen others contribute to the collection, which hangs on the wall side-by-side with gaudy pink, white and black striped stockings contributed by Sallie Stembler. They were worn by her in a vaudeville sketch and are quite the most impossible things imaginable.

In one corner of the room a dainty satin apron with lace insertions, worn by Lillian Russell in her Weber & Fields' days, occupies a prominent place.

A notable feature is a dodo of stage shoes, ranging from tiny slippers to half-size dancing slippers to the 25 names. The smallest shoe in the collection is that of Josephine Cohan, a dainty dancing shoe of black kid, a full half inch smaller than a shoe worn by one of the smallest of the Lill' Giulians' company. There are steam-stained slippers from serpentine dancers, such as Paquita, side by side with the dainty French creations of Fougeret, the straw sandals of Ten Ichi, the magician, and a cloth of gold slipper worn by Elsie de Wolfe. Ada Lewis' slipper is as tough in material as any of the other articles, and is from a famous "feminist" troupe.

A cabinet in one corner was used in one of the productions of the old Lyceum theater, and scarcely suggests its picture-frame molding and stamped paper origin, while a glazed cabinet from a famous theatrical collection, ranging from an inkstand to a theater box, Gen. Santa Anna, the Mexican patriot, hangs beside a dainty pair worn by one of the genuinely original Fadora sextet girls, while "Silver's" Oakley's clumsy cloz hangs beside a blue headed moocasin worn by Slitting Bill and a quill-decorated affair worn by one of the Mesdames-Sitting Bull.

All told the collection consists of more than 2,000 souvenirs, and the history of most of them can readily recalled by the owner.

MILLIONAIRE AND WIFE QUIT SETTLEMENT WORK.

J. G. Phelps Stokes and his wife, who was Roberta, the cigarmaker, have abandoned their settlement work on the East side in New York, and will become active missionaries for the Social Democratic cause.

"So long as there remains this inherent injustice in the misgoverned industrial system, which makes people poor, and then sees that they are kept so," they say, "they have found their work can do little or no effective good. We are compelled to give up the work because of the fact that a donation to charity or philanthropy can serve no really good purpose so long as the unjust social system remains." is another reason advanced by Mrs. Stokes for their abandonment of a task which has made them known throughout the country.

When Mr. Stokes, son of a millionaire New York family, took up settlement work in New York, after leaving college, he met Rose Pastor, then writing for a Jewish newspaper and working in one of the settlements. She had formerly been a cigarmaker in Cleveland, O. He married her, gave up his rich home, and went to live with her in a five-room flat in the heart of the lower East side.

In explaining their action Mrs. Stokes issued the following statement:

"My husband and I are no longer engaged in settlement work because the spirit of those engaged in the work make people blinded to the real issues. The idle rich are blind to the fact that a donation to charity or philanthropy can serve no really good purpose so long as the unjust social system remains, which legalizes the taking of great wealth by the idle."

"The oppressed are blind to the fact that settlements, churches, and similar institutions can do little real good so long as there remains the injustice inherent in the industrial system which makes and keeps people poor. We are now most actively engaged in speaking to awaken earnest men and women everywhere to a recognition of the real facts and the real issues."

BLIND GIRLS TO OPERATE SWITCHBOARDS.

Mrs. Isaac Isaacs, the blind telephone operator of Lebanon hospital, the Bronx, has been requested to teach a class of blind girls the art of manipulating a telephone switchboard. She is going to do this at the suggestion of an officer of the telephone company, who agreed to hire the blind girls immediately if they show any skill like Miss Isaacs' proficiency.

Miss Isaacs was taken to the hospital three years ago to have an operation performed on her eyes. At that time her sight was failing. Before the operation could be performed, however, she suffered from blood poisoning, and it was necessary to take off her eye. She had neither relatives nor friends. She had become a general favorite at the hospital, and Superintendent William Daub planned to keep her and make some easy berth for her. At that time the hospital did not have a telephone switchboard, and as one was going to be put in one of the surgeon's suggested that the blind girl should operate it. The switchboard was put in and it has ten trunk and 40 local lines.

The young woman learned to operate it in two days with such skill and splendid precision that everyone who watched her work was amazed. She also learned to type on a typewriter, and now handles all the correspondence for Superintendent Daub.

A few weeks ago the young woman was invited to attend one of Helen Keller's lectures at the Waldorf, and after Miss Keller spoke she told of her experience as a telephone operator. Before the lecture began, the superintendent of the telephone company had taken a deep interest in the girl, and proposed that she teach a class of blind girls to become telephone operators. She was delighted with the idea, and will begin her work next week.

BEGGARS CONTINUALLY HOUNDING MRS. SAGE.

Mrs. Russell Sage is practically in a state of siege at her country home at Lawrence, L. I., because of the importunities of applicants for her bounty.

The persistent have been the demands upon her, not only by special messengers and by mail but by those who hope to obtain a personal interview, that she is almost deprived of out-door recreation.

Scores of these beggars who would extort from her some amount of gift or money for either real or pretended needs lie in wait outside the gates and outposts are maintained by men and women who trust to luck that fortune may favor them in their appeals.

Mrs. Sage has been in a quandary whether to remain in Lawrence or come into the city to live, but close personal friends have advised her to remain where she is, as one of them remarked: "Mrs. Sage is a good soul, but she wouldn't know a moment's peace were she to move to New York."

Mrs. Sage has, according to the statement of this same friend, determined that she will grant an interview to one that she will neither see nor speak with any one nor an intimate friend or one who does not come accredited from her attorney, Henry W. de Forest. Her servants have been instructed to this effect.

"As a matter of fact" said this friend, "Mrs. Sage is beginning to feel herself persecuted, and things have come to such a state that she hesitates to go abroad either alone or with friends."

The readers of this paper will be pleased to learn that there is at least one decided disease that science has been able to cure in any of these states, and that is Catarrh. Hood's Catarrh cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hood's Catarrh cure is taken internally, and directs itself upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have such faith in the curative powers that they offer One hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O.

Spring Medicine

The best is Hood's Sarsaparilla. It is the best because it does the most good. While it makes the blood pure, fresh and lively, it tones the stomach to better digestion, creates an appetite, stimulates the kidneys and liver, gives new brain, nerve and digestive strength.

An unequalled list of cures—40,366 testimonials in two years—proves its merit.

Sarsaparilla.—For those who prefer medicine in tablet form, there is now put up in chocolate tablets called Sarsaparilla, as well as known Hood's Sarsaparilla, to fail for spring medicine. It is a safe and reliable medicine, and is as good as the liquid sarsaparilla, *ergo*, has no equal as a general tonic. See the following extract from a letter to say this:

Railroad Company Made Defendant in Each Case.

Among the last suits filed for the spring term of circuit court, which convenes next Monday, were two against the L & N. railroad company, \$1,000 in each case being asked. Henry Thomas, one of the plaintiffs, states in his petition that he, in company with members of his family, was en route from Itta Bena, Miss., to this city and that the train failed to stop here long enough for them to get off and that they were carried to Nortonville, where they were condemned to a cold and damp room to remain all night.

F. West, as next best friend of

Mrs. J. F. Martin, of Marion, West, is the style of the other suit. Plaintiff alleges that while he was a passenger, en route from Nortonville to this place, and while the train was at Crofton, a car window fell, catching the index finger of one of his hands, amputated the member.

Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Liniment. 50 cents at any drug store.

LITTLE CHILD.

Horribly Burned and May Die of Injuries.

The 15-months-old daughter of Mr. Geo. W. Wills, of Masonville, was horribly burned yesterday morning about seven o'clock. While in mother was in the dining room the child's clothing became ignited from an open grate. Mrs. Wills heard her daughter's screams, and rushing into the room, soon extinguished the flames, but not until the little one's face and arms had been burned almost to a crisp. It is feared that her injuries will result fatally.

The Limit of Life

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years before a man's life is possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Elmer B. Snoddy, the scientific tonic medicine that revitalizes every vital organ of the body. Guaranteed by R. C. Hardwick, Druggist, 50c.

MEETINGS HAVE CLOSED.

(Continued from First Page.)

almost exhausted. In the horse race sermon ("They're off") he held his audience spell-bound for an hour and a half. Want of space prohibits our noticing these two masterly sermons at length.

Before beginning his sermon Sunday night Mr. Holcomb spoke at some length of the hospitality of our people, saying that he had never had better treatment anywhere.

Dr. Lyon stated Sunday night that his church had met all the incidental expenses of the meeting and had subscribed a handsome sum for the evangelist. Quite a large offering was taken up for Mr. Holcomb from the congregations of Sunday afternoon and Sunday night.

Mr. Holcomb went to Nashville yesterday to rest up a few days before going South to hold another meeting.

There has been considerable adverse criticism here of Mr. Holcomb's methods, some going so far as to accuse him of trying to imitate Sam Jones, but all agree that he is intensely in earnest and the fact cannot be disguised that he "draws." In our next issue we will be able, probably, to give the results of his work here.

Sunday night he took the sense of his audience as to permitting the tabernacle being sold or used for other than religious purposes, with some modifications. The sentiment seemed to be altogether in favor of the building not being turned over to any body for anything.

TABERNACLE COURSE

Attraction No. 6 Wednesday Night, Feb. 27.

East St. Louis Daily Journal, Nov. 11, 1906.—A musical treat. The Kellogg-Haines Singing Party delighted large audience at the High School Friday night.

The season of 1906-07 is destined to be a most gratifying success to the High School Literary society, if the crowd and style of the performance given by the Kellogg-Haines Singing Party is a criterion. "The best ever" was the verdict of all who had the pleasure of hearing the company at the High School auditorium Friday night. The singing party, as they style themselves, is composed of a mixed quartet of professional singers of exceptional merit, as follows: Miss Julia Bruer, soprano; Miss Jeanette Fodde, contralto; Paul C. Blatz, tenor; William A. Goldberg, basso; Mrs. Kellogg-Haines, pianist and musical director.

Miss Julia Bruer possesses a full, rich, sweet voice which is under her absolute control at all times. Miss Fodde won a great success. She acted with excellent taste during the entire play and showed that abandon of self which only true talent can give. Mr. Goldberg possesses a sympathetic baritone voice and sings with artistic taste. As Lionel in "Martha" Mr. Blatz showed himself the possessor of a lurid tenor voice of much sweetness. These artists constitute perhaps the most delightful quartet of entertainers ever heard in the auditorium, and the costuming of the different characters was excellent. The High School literary society is to be congratulated for their good taste in selecting the Kellogg-Haines Singing party and it would be well for them to arrange with the same company for next season. Special rate to public school students: 25¢ general admission.

NORTONVILLE GIRL

Dies From Effects of Poison Taken.

Lilly Simpson, aged 19 years, died at the City Hospital Saturday afternoon as the result of acute bichloride of mercury poisoning, says the Nashville American. It is alleged that the young woman attempted to commit suicide by taking the poison at Bessie Howell's place. The case is rather mysterious, as it has been kept very quiet, and the young woman's associates refuse to give any information regarding her past life or cause of attempting to take her life. It was learned that she went to the resort about two months ago. It is thought her people live at Nortonville, Ky.

NASHVILLE PHYSICIAN

Convicted of Murder of Mrs. Rosa Mangrum.

Nashville, Tenn., Feb. 16.—After one of the most stubbornly fought legal battles ever witnessed here, Dr. J. Herman Feist, a prominent physician of this city, was today found guilty of murdering Mrs. Rosa Mangrum. The verdict carries with it the death penalty.

Mrs. Mangrum, who had been under the care of Dr. Feist, disappeared on December 14, 1905, and her body was found in the Ohio river at Cairo, Ill., on January 25, 1906. A few days before the disappearance of Mrs. Mangrum she drew something like \$1,400 from a local bank and announced that she was going to Chicago. She left her boarding house on the night of her disappearance for the railway station and that was the last ever seen of her.

The evidence against Dr. Feist was purely circumstantial, the most salient feature of which was that he deposited in a local bank the sum of \$500 a few days after the disappearance of Mrs. Mangrum.

S. K. C. WON TWO.

Next League Game on Washington's Birth-day.

The double header basket ball contest at Mayson's High Friday resulted in a victory for the S. K. C. teams, the college boys winning both games from Company D. The score in the first game was 23 to 18 and in the second, 16 to 7. The next league games will be played at the High School. The first game will be between first S. K. C. and first Company D, and the second between the High School and second S. K. C.

Girls Play Game.

Two teams made up of young ladies of South Kentucky College and the High School played a match game at the college gymnasium Saturday afternoon. The girls, the score being 16 to 14. This was the first match game of basket ball ever played in the city by young ladies and other games will probably be arranged by them. Only young ladies witnessed the contest, which was a very close and exciting one throughout.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable. Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney and bladder specialist.

It is the greatest medical triumph of the nineteenth century discovered after years of scientific research by Dr. Kilmer, the eminent physician and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh and bright red blood, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everybody but if you have kidney, liver or heart trouble, he will prescribe the remedy you need. It has been tested in so many ways, in hospital wards and in private practice, and has proved so successful everywhere that a special arrangement has been made by which all readers of this paper, who have not already tried it, may send a small bottle sent free, and also a book telling about the effects of Swamp-Root, and how to find out if you have kidney or bladder trouble.

When writing mention reading this advertisement in the paper and send your address to Dr. Kilmer, Co., Binghamton, N. Y. The regular fifty-cent and one-half bottle bottles are \$1.00 each. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE SICK.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to their merits, and, therefore, of the value of those described by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of reservation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage—but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but needless to say will always be called for by the short name of Syrup of Figs and to get its beneficial effects always—to make purchasing a full bottle of the Company's—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

TITLED TAKE VEIL

CONVENT WHERE WOMEN OF ROYALTY TAKE VOWS.

Remarkable Religious Order at Prague
Whose Abbess Has Just Become
First Lady of the Austrian
Court.

A strange anomaly is that of an abbess of a convent being the mistress of the imperial court of Austria and the head of society there, but such is the case with the archduchess Maria Annaclita, abbess of the convent for noble ladies, who has succeeded her sister—so to speak, the archduchess Maria Josephine, as the archduchess empress in the last of the Hapsburgs.

Through the death of Archduke Otto his widow, Maria Josephine was compelled to relinquish her high position at court, and it became necessary to choose another archduchess to fill the place which would naturally be occupied by the empress were she living.

To make a selection was an embarrassing affair, half a dozen archduchesses were available.

Among them was the Archduchess Alice of Tuscany, but she did not care to leave her charming home at Salzburg as much as would be necessary were she to preside over the Vienna court. And so, after much delay, the old emperor selected his niece, Archduchess Maria Annaclita, for the high and responsible dignity.

The Archduchess Maria Annaclita will make a stately and striking figure-head for the gorgeous ceremonial of the Austrian court. Just 30 years of age, she is a picture of health and refined looking, with a face which presents more of the Hapsburg racial features than that of any other archduchess.

As a spinster she would not be eligible to preside over the imperial court.

CONVENT FOR NOBLE LADIES AT PRAGUE.

It is the building adjoining the church on the left on the top of the hill, but an abbess of the convent for noble ladies at Prague, she is qualified for the dignity and ranks as a married archduchess. She became an abbess in 1895, the year of the marriage of Archduke Rudolf of Austria, the Archduchess Maria Sophie, who in that year became the wife of Duke Albrecht of Wurttemberg.

The convent is one of the most famous in Europe and to belong to it is a high and greatly coveted distinction. It was founded by the great Empress Maria Theresa for the daughters of the highest aristocracy. The members must have at least 16 ancestral quarterings and are nominated only by the emperor.

The convent is built on a high eminence overlooking the ancient city of Prague, where stand the Imperial and Royal Palace and the palaces of the old Kings of Bohemia. It would be hard to find a more beautiful position.

Each convent lady has her own apartments, consisting of two rooms and a kitchen and her own servants to wait on her, beside an annual allowance of about \$1,000 in money to whatever sum she may always possess.

Archduchess finds no place within its walls. The establishment is kept up like a royal palace. Handsome carriages and horses with liveried coachmen and footmen are placed freely at the disposal of the noble sisterhood. A box at the opera is always reserved for them. They can come and go as they please. They can reside within the convent as much or as little as they please.

The religious duties imposed on them are of the lightest character. They are required to sing in the choir and attend a certain number of church services. On the annual feast day of the convent they have to take part in a long and somewhat tedious ceremonial. But as compensation the day concludes for them with a gala performance at the opera.

In the convent they wear a black dress with a train bordered with embroidery, and the headgear a long white veil flowing from a Marie Stuart style of cap. Outside they can dress as they please.

As head of this ancient and noble foundation the archduchess enjoys a magnificent suite of apartments and a yearly income of between \$20,000 and \$25,000.

White Bear in Pennsylvania.

White deer are quite common in the West Branch Valley, but the latest addition to that scene is a white bear, said to be the largest ever found. At least this is what the residents of Dougherty's Run district, Lycoming county, say, the aforesaid white bear having been seen twice within three weeks, those who have encountered it being Frank Weaver and a Miss Hester, both residents of Dougherty's Run.

Don't You Feel Well?

Ache All Over?

Everyone feels as though your blood was hot. Cold feet! Backache! Those warning signals which indicate that "a god disease" or a fever is coming on?"

Stop in any drug store and get Piercy's Golden Medical Discovery.

When you have to take a bath, a hot foot bath, go to bed, cover up warmly, take a dose of Piercy's Golden Medical Discovery.

In the morning, when you wake up, drink and you will feel better. You will be able to eat and many diseases be gone.

If you are not able to take a dose of Dr. Piercy's Golden Medical Discovery, take a dose of Piercy's Liver Tonic.

It is a fine tonic for the run-down system.

It is a firm believer in Dr. Piercy's Golden Medical Discovery.

Herbert Chairman Board of Relief of coal miners, says Piercy's Golden Medical Discovery has been of practical value to a number of men in my employ.

They are experiencing a great deal of trouble with their lungs and others.

The colds contracted fall into pneumonia.

However, since we have known of the value of Piercy's Liver Tonic, we have less sickness, as this medicine seems to keep the blood in a healthy active condition, and your liver will become active and throw off poisons from the system.

Get it near your Nature as you can. There's a reason. Vegetables foods are good for the body, but they do not help human energy digest and assimilate them best. In disease a remedy made up of vegetable roots, stems, leaves, flowers, bark, roots, Black Cherry bark, Marshmallow root and Bloodroot, such as Doctor Piercy's Liver Tonic, is assimilated in the stomach and taken up by the blood, therefore it is the most powerful tonic in the world.

It is a tonic for the regulation of lost health.

Microbes attack us from every side.

They mean to kill us with us.

It is a tonic to all organs of the body.

BAD HEADACHES

generally arise from bad stomach, indigestion, flatulence, constipation, taste, sour stomach, etc. These are common symptoms of gas, common symptoms though not all present at the same time. Piercy's Liver Tonic in small doses, only one or two tablets, will remove all these symptoms.

DIG FOR KAURI GUM

ONE OF THE PECULIAR INDUSTRIES OF NEW ZEALAND.

Treasure Found Hidden Amidst the Roots of the Mighty Trees of the Forest of the Island.

If an American farmer who had grubbed the stump out of his field in order to secure tillable land should be suddenly transported to New Zealand, he would open his eyes to find a group of workmen digging around a tree stump his first impression would be that in the far away island they had troubles similar to his own, and were digging up tree stumps that the land might be prepared for crops.

But that is where he would be

Digging for Kauri Gum Among Roots of a Tree.

wrong, and, if he remained long enough on the spot he would discover that it was not the stump that he was after but the roots of the tree. The root was not for the purpose of removing the stump but that something that the root contained might be obtained. It is hidden treasure which many New Zealanders find it profitable to dig for, and although it is not gold or the illegitimate profits of the famous Captain Kidd, certain it is that the digging proves profitable.

The hidden treasure sought is kauri gum, a resinous substance which is the product of the kauri tree. The gum can be secured from the trunks of trees while they are alive, for it provides in itself a means of escape if it is profitably to dig for it the soil about the stump remaining after the tree have been cut down. Sometimes chunks weighing as much as 100 pounds are taken up from the ground.

Digging for kauri gum is profitable, for the gum is used in the manufacture of varnish, and apparently it is one of the few products of the place cannot be filled by anything else which has yet been discovered. In fact, the price has gone up 25 per cent within the last year because of the great increase in the demand. It has

Gigantic Kauri Pine of New Zealand. It is known that it can be used in certain enamel paints, and this has had a decided influence in command up to a point above the supply.

The kauri pine is a magnificent tree. It rises as straight as a needle to a height of from 150 to 200 feet and attains at times a diameter of 15 feet. It is noted for its dark, dense foliage and is much used for masts for vessels constructed for the British navy.

Sgt. "If I were sure that the candy sold in that shop were pure and free from bacteria, I should be glad to get you a couple of pounds," says the scientific awl. "But in these days of reckless advertising, I feel that I cannot take too many precautions to preserve your health and beauty."

The fair young woman, who has a normal candy appetite, coos a word of appreciation of his thoughtfulness. Next day they approach a place where a soda fountain continues its glad song.

"You are fond of soda and ice cream, are you not?" he asks.

"Just love it."

"If it weren't so often filled with dangerous germs I would be happy to get you some."

But then she does not care entirely and they continue their homeward walk in silence. When he is leaving her, he bashfully hints that he would like to kiss her good-bye.

"You may," she says, to his surprise. "You can be sure there won't be any geese in the kiss, either, for you haven't given me the chance to accuse any."

He sleeps but little that night, because of his mental effort to determine whether she is thoughtful or sarcastic.

A HOPKINSVILLE CASE.

Many More Like It in Hopkinsville.

The following case is but one of many similar occurring daily in Hopkinsville. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence.

Mrs. W. H. Roff, wife of W. H. Roff, machinist employed at Forbes & Co.'s Wagon Works, and residing at 1029 High Street, says: "I hardly knew for many months what it was to be free from an aching back, and the irregular action of the kidneys causing, at the same time other symptoms which are distressing and often times exasperating. I read about Doan's Kidney Pills and the symptoms which it was claimed they would cure seemed so much like mine that I had my husband get a box for me. I found they gave me almost immediate relief, and continued taking them sometimes. They did me more good than all the kidney medicine I had ever taken put together, and the results of the treatment justify me in subscribing my name to a hearty endorsement of the pills."

For sale by all dealers. Price 50 cents. Foster Mildurn Co., Buffalo, N.Y., sole agents for the United States. Remember the name—Doan's and take no other.

The New York Sun objects to the "too free circulation of dynamite". It is not the circulation, but the explosion of dynamite that hurts

"Generally debilitated for years. Had sick headaches, lacked ambition, was worn-out and all run-down. But dock Blood Bitters made me a well woman."—Mrs. Chas. Freitoy, Mooseup Conn.

WILD WITH ITCHING HUMOR

Eruption Broke Out in Spots All Over Body—Caused a Continual Itching for Two Years—Doctor's Medicine Did not Good—Cured at Expense of only \$1.25 and Now

THANKS CUTICURA FOR COMPLETE CURE

"Some time ago I wrote you for a book on the Cuticura Remedies and received it O. K. and went and bought the Soap, Ointment, and Pill. They did me more good than any medicine I used before. I had a case of skin disease, and I am very thankful to you. My trouble was eruption of the skin, which broke out in spots all over my body and caused continual Itching, which never drove me wild at times. I got medicine of a doctor, but it did not cure me, and when I saw in a paper your ad, I sent to you for the Cuticura book and started my cure in it. I then went to the drug store and bought one cake of Cuticura Soap, one box of Cuticura Ointment, and one box of Cuticura Pill. After the first application I received relief. I used the first soap and two extra cakes of Cuticura Soap, and was completely cured. I have suffered for two years now. I again thank Cuticura for my cure. If you ever publish this, Your friend forever, Claude N. Johnson, Maple Grove Farm, R. P. D. 2, Walnut, Ky., June 15, 1905."

PROSPECTS FOR 1907.

Heavy Purchases of Farming Machinery, Fencing, Seeds, etc.

Good Ground For Believing Fruit Will Not Be a Failure.

Farmers have been greatly delayed in their work by the heavy rains, which lasted through the entire fall and up to mid-winter, but the fine weather of last week not only put the roads in better condition, but dried the earth sufficiently to allow the burning of plant beds. There was a larger crowd in town Saturday, much since New Year's day, probably, to the delight of the merchants, especially the dealers in farm implements and seeds. Farmers, in fact, for two weeks or more, have been buying large quantities of fertilizer, wire fencing and machinery. The sellers of harvesting machines and engines have been making liberal sales, and the new year is starting off under most favorable circumstances.

It is a little too early to guess as to what the fruit crops may be, but as February will soon be gone, and as old-timers say, "fruit is never killed in March," we still have a "living chance" of having some fruit. Hope for grapes has not yet been blasted and it is safe under present conditions to believe that apples and late peaches have not yet been killed. Wheat is looking well.
